son, was elected first vice president of the State League of Postmasters at the Milwaukee convention Thursday. Other officers elected were: Oscar Skarr, La Crosse, president; John Coppes, Kaukauna, second vice president; J. E. Plannigan, Oconomowoc, third vice president; Byron Brundage, St. Croix Falls, fourth vice president; R. L. Nash, Grand Rapids, secretary-treasurer.

The convention passed a resolution to be sent to Washington asking that rates on special delivery mails be regulated according to weight rather than by package.

Postmaster J. J. Cunningham attended.

## Two Men and Their Peculiar Ways

We know two men—one a clerk in a small hotel, the other president of a large manufacturing plant.

Recently we learned that the clerk made it a rule to carry at least \$100 in actual money in his pocket. His friends have often warned him against loss or theft—but he says he "feels better" when he has a fat pocket book.

The rich man makes it a rule to have only what he actually needs in his pocket. In fact we saw him once when he did not have 35 cents to pay for a lunch. But the rich man keeps his money where it is safe—where it will earn more money for him. His check book is always ready when he needs cash.

The checking system is used by nearly all who are making a success in business affairs. It costs less, risks less and pays better.

## DIES OF INJURIES SUFFERED IN FALL

Owen Smith, 51, a farmer living near Darlington, died on the train while being brought to Mercy hospital Thursday, after suffering a fractured skull when he fell from a load of hay. The body was taken to Whaley's Undertaking rooms, and was shipped this morning to Darlington. A wife and children survive him.

A Darlington doctor phoned ahead to Janesville to have the city ambulance ready to meet the 4:30 train. It was there, prepared for the drive to the hospital—but it was not needed.

**HAS THE LADY GOT YOU, BROTHER?**

Lady Nicotine ramps more men than Lady Hydrate ever brought to ruin and she works quite as fast. The victim isn't her power long before he realizes his helplessness. For a considerable span of time he finds a harmless affliction which he can break off at will, but too late it draws on him that he is enslaved. He finds it impossible to get up and go to work every week and at the same time maintain his usual or best imitation of sang froid. He calls himself a moderate smoker, yet he can't put off his pipe till the evening, for the simple reason that the lady has got him vamped.

The moderate smoker is a mildly ailing creature. He is like that nearly every species that "cold take it or let it alone"—but usually took it in injurious quantities which have

Chronic bronchitis is sometimes cured after smoking is stopped, though in the case of emphysema and chronic pulmonary (lung) inflammation is often dependent on smoking or chewing. Hyperacidity of the stomach, chiefly due to tobacco, causes indigestion and impairment of health as to give rise to a suspicion of cancer, which may be removed only by total abstinence from tobacco. Excessive use of tobacco causes early signs of grave tobacco poisoning; palpitation or pain in the breast; distress about the heart region; low fever. Angina pectoris (heart pain) and chronic bronchitis are apparently produced in some cases by moderate use of tobacco. Cerebral hyperemia (brain congestion) is caused or aggravated

—Buckley River.—William Korb, who owns a summer home on Carpenter lake, and his Alderle, fought a 50-pound timber wolf to death. Korb had seen indications of the wolf in that neighborhood for some time and hearing a disturbance he let the dog out. The Alderle took after the animal and after a long chase grappled with it and fought a royal battle for about 30 minutes, before Korb arrived and ended the wolf's life with a club.

Q. What states in the union have Blue Sky Laws? M. K. D.

A. States in the union having Blue Sky Laws are Georgia, South Carolina, New Hampshire, Virginia, Tennessee, Ohio, Louisiana, Mississippi, Illinois, Alabama, Aline, Missouri, Arkansas, Michigan, Florida, Iowa, California, Minnesota, Oregon, North Dakota, Montana, Arizona, and South Dakota.

Q. Is the flag that inspired Francis Scott Key to write "The Star Spangled Banner" still in existence?

A. "The flag which was flying over Fort Sumter on September 14, 1862, and which inspired Francis Scott Key to write the "Star Spangled Banner" is now in the collection of the Smithsonian Institution, Washington, D. C.

Q. Who said, "Any man who says he is an American, but who is not, isn't an American at all?"

A. M. O.

A. This was said by former President Roosevelt shortly before his death.

Q. Is it true that the fur seal fishing off the Erikof Islands paid the United States government more than \$100,000 a year? R. R.

A. Alaska was ceded to the United States by Russia in 1867 for \$7,200,000 in gold and silver. Following the custom of Russia, the fur seal industry was leased for a period of 20 years—1870-1890—to the United States government in rentals and royalties \$350,000. The import duty on dressed sealskins brought back from London was \$100,000 a year. The total was more than \$12,000,000, making the total \$13,000,000, nearly twice the cost of Alaska. The industry was profitable for 10 years, but the herd had decreased and although the price of sealskins had risen, the income was less than half

the amount making for severe criticism from the people.

**Q.** Is there any non-magnetic substance, through which a magnet will not exert its force, but which will exert the force of a magnet?

**A.** The Bureau of Standards states that there is no known substance which is an insulator for magnetism.

**Q.** Why isn't the moon always covered with craters?

**A.** The craters of the moon are viewed with interest by the Lutheran authorities say this action was taken because of the fact that the majority of students at these institutions who cannot speak English, language the same craters have heretofore been printed. Students will also be prohibited from wearing hats through the social schools of the denomination. Funds having been established to provide for the work.

**John** A former answer confused an eclipse with phases of the moon. When the earth's shadow falls on the moon it causes a partial or total eclipse. The sun is a dark, opaque body. The half turned toward the sun is always bright; the other half is invisible, and therefore usually unvisited. The sun is going once completely round the earth, different regions of this illuminated half are turned

Q. Who was the left-handed judge of Israel? L. W. K.

A. This refers to "Ehud, the son of Gera, the Benjamite, a man left-handed."

Q. Why are the Dead Sea and the Red Sea so called? C. B.

A. The Dead Sea is so called because no living thing can exist on it, on account of the extreme salinity of its water. The Red Sea was originally named the Sea of "Edon," Edon meaning "red" or "muddy."

Q. How fast should the pulse beat? R. R. K.

A. The pulse generally slows down through life. A newborn infant has a pulse of 130 to 140 beats per minute. An adult's pulse ranges from 70 to 75 in health, while in old age the rate is from 60 to 75.

Q. What was the "Bonfire of Vanities"?

A. In 1497 at Florence, Italy. Savonarola, an Italian monk and martyr, celebrated a carnival at which he ordered burned indecent books, pictures, masks; and other things pertaining to frivolity. A Venetian merchant offered 22,000

gold florins for the domed vanities, but his offer was rejected and his portrait added to the pile. There is no proof that any book or painting of value was sacrificed, as Savonarola had great respect for the arts and sciences, and when the Medici library was offered for sale to pay the family's debts, he saved the collection with money from the con-

the state is better qualified to speak for the women,—calls attention to the action of Governor Clement of Vermont, in refusing to summon a special session of the legislature, to act 'on the measure, and notes that he is one of the few republicans that have assumed that attitude. In fact the suffrage amendment has been ratified by 129 republican state legislatures and one only has voted against; on the other hand, 7 democratic legislatures have voted no and 6 for. The burden of denial of universal suffrage to women is on the democratic party alone. Its 7 negative votes have made it impossible so far.

PORTAGE GETS SAMSON - FAIRY GAME JULY 28

Battle With Whitewater Changed to August 4; Localists at Kenosha This Week.

Portage is a lucky town. On the twenty-eighth of this month they're going to have an attraction of which the fans of Janesville may truly display their envy. The Samson Tractors of this city have been booked to play the Fairbanks-Morse crew of Beloit on that day.

It's all right, local fans. The dates are not being mixed. While it was announced Wednesday that the Samson Tractors would play at Whitewater on the twenty-eighth, arrangements have been made to put that game off until August 4.

The local association of Portage has been quietly organizing a schedule of Wednesday semi-pro games for their townpeople. They opened on this week with the P-ricks and the Logan Squares.

Road Good to Kenosha. Coming more up-to-date, the Tractor team will play at Kenosha tomorrow against the Simmons Bed company of that place. Upon assurance that roads between the two cities are in fine shape, many fans have planned to motor up. The route is highway 20, past the sugar beet factory, to Delavan. From there it is number 50 through the town of Lake Geneva.

NEENAH IS FANLESS; MAY DROP BASEBALL

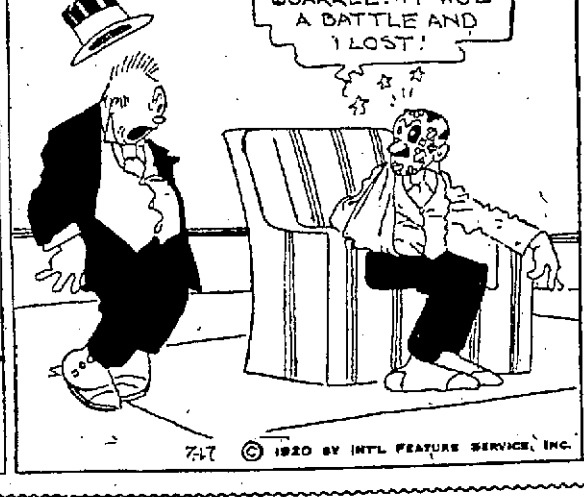

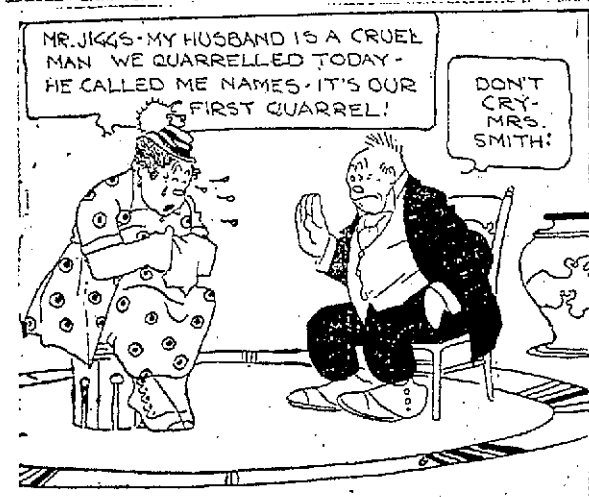

Neenah, July 15.—Baseball as a summer pastime may be abandoned here because of the utter lack of interest manifest in the sport.

The lone semi-pro team organized here is about ready to quit because of lack of support from the fans, or rather because there are no fans.

ALL-STAR BALL CLUB IN PRACTICE TONIGHT

Despite Tuesday's threatening weather the Stars went through heavy work-out before the evening shadows fell. Everyone must be on Friday night and all must be ready for work. Games are being booked with the following teams: Rockford Hammers, New Glarus Highway Trailers, Edgerton, Monroe, Stoughton, Milton Junction, Evansville, Cambridge, Fairbanks-Morse, Beloit, and all challenging teams.

Blivens' his discharge. Sixty plus back pay. With a worried frown. Arrived in town.

On Spilvins' wedding-day. Blivens hid his anger. Did no tragic stunts. Merely telegraphed: "Ninette. Come at once."

The tumult and shouting dies, the captain and the king depart, says ex-Sergeant SOLT, and either get decorated for office or retire to Switzerland.

HEALTH HINTS TO THE AFFLICTED

Y. E. G. writes: I was well and strong and used to spring out of bed with a leap and go about my work in our leading cities. Now I find I cannot take anything before breakfast. Should I change my diet?

Ans. No. I want it. You probably have a weak stomach. Don't change your diet, change your profession. Try professionalizing, it's much safer.

P. V. T. writes: While in the army I had an excellent appetite and ate three meals a day and sometimes seconds when the Mess Sergeant couldn't get me to make a usual meal. Now I am always hungry and cannot satisfy the craving.

Ans. Your case is not uncommon. You are working too hard for the size salary you get. Take a change. Try a long walk just after midnight in the residential districts and try climbing. Climb anything. Porches you can find them. You will find that in a few weeks you'll pick up enough to be able to eat all you want.

W. E. T. For over a year I seem to suffer from indigestion. What shall I do?

Ans. Your case is simple. Follow these directions: First, vote actively in November. If this doesn't help you, move to Cuba.

IN PEACH BLOSSOM LAND

The Japanese Diet was over and the premier called for roast beef with mandarin sauce. But just then General O'Hara, the Chop Stick Official to the Emperor, interrupted him.

"Quite," said the Premier.

"The army has been withdrawn. Are you sure the day's work is over?" he inquired nervously.

"Certainly."

"The regular massacre of Japanese police by Korean school-girls has been arranged for?"

"Yes."

"Well, then, just sign the daily promise to withdraw from Shantung and we'll have the foreign newspapermen come in and join us."

HOME RUN KING TIES 1919 MARK

AMERICAN LEAGUE

Babe Ruth yesterday equalled his record of last year by knocking out his twenty-ninth home run of the season.

In addition he won the game for New York. The hit, over the top of the Yankee's right field stand, came in the eleventh inning with Ward and Pipp on the bags, and broke a 10-10 tie. St. Louis lost 13 to 10.

The Chicago White Sox went out to the Senators' field at Washington yesterday only to find a sign hung out "Wet Grounds." There was a lot of hot talk among the Chicago players who felt that the grounds were dry enough to play on. There was no game.

Thunder showers halted the game between the Indians and Philadelphia in the seventh with the score 2 to 1 in favor of Cleveland. Speaker and Chapman, hitting hard, won the game.

Boston and Detroit idle, wet grounds.

Those Dodgers from Brooklyn elung on to the first place by beating the Cubs 4 to 3. Bailey was hit hard in the tenth. Vaughn was trounced out of the box.

Coming up with a rush in the ninth, Philadelphia defeated Cincinnati 7 to 5.

Fourth game of the series between the Pirates and the Braves went to the Pirates 9 to 8. With the score tied in the 9th, Grimm led with a hit and reached second on Canton's sacrifice. Schmidt was passed and Leo Hunter for Cullen, drove a single to center, scoring Grimm.

Only three games scheduled.

AMERICAN ASSOCIATION

Kelly's work for Toledo beat the Brewers 6 to 2.

On Tuesday, Adams, 2nd, the man at the wheel who will try to steer the Resolute to victory in her first race in defense of the America's Cup off Sandy Hook today, is characterized by experts as the premier American yachtsman.

He has owned more than a score of yachts and has sailed nearly 100,000 miles and some of these have been the best boats of their class in America and the world.

Mr. Adams is treasurer of Harvard University and a member of the corporation, a director in many companies and in personal charge of trust estates amounting to many millions.

Years ago he became known to yachting associates under the title of "Deacon" and some of them still call him by that name.

Great Sportsman.

Born at Quincy, Mass., he came of a long line of sea-faring men and inherited a love for the sea. He is credited with calm judgment and a high type of sportsmanship. His father used to take him sailing. In Boston Harbor when he was a child, and by the time he was 12 years old he was winning races with his small boats.

In those days he learned a lot about the tricky side of races for rules were lax.

In later years Mr. Adams built and sailed to victory many notable yachts, most of which bore names composed of seven letters with a double o, such as the Papeete, Baboon, Gossoon, Harpoon and Leary.

On Tuesday, Adams, 2nd, the man at the wheel of the famous Pilgrim when she sailed a race against the Vigilant and Jubilee for the honor of defending the America's Cup in 1923. He sent his brother, George, mate of the Pilgrim to the leeward rail to watch the 10th sheets as the yacht drove along in a smoky southwester. She heeled so hard that George soon stood in water up to his knees.

"Fifty, there, Deacon," he yelled. "It's getting deep out here."

"I don't care if it comes up to your neck, you stay there till I tell you to come out," replied Captain Charles. But the Pilgrim was defeated.

Stops Scotchman.

There may be a happy omen in the fact that Charles F. Adams years ago blocked the aspirations of one little Scotch cutter, the Minerva, which came to America and defeated a number of American boats in 1890.

Her victories were regarded as ominous and suggested to yachtsmen the possibility that a larger boat of her type would be sent to carry away the America's Cup. The Minerva was sailed by Charlie Barr, the famous skipper, who defended the cup as skipper of the Columbia in 1901 and the Reliance in 1903. But Captain Adams with his little Gossoon stopped the victorious career by winning two out of three races.

Captain Christianson, the professional skipper of the Resolute has sailed with Mr. Adams before. He was quartermaster of the Pilgrim in the race of 1903 and won Mr. Adams' approval by going out on to the gaff, a dangerous position, to fasten a sail that became loose while the race was on.

BELOIT GOLFERS LOSE TO MADISON PLAYERS

Beloit, Wis., July 16.—Beloit Country Club golfers lost to the Madison Blue Players of Madison at the Beloit links yesterday afternoon 40 to 40. The biggest visiting team that ever invaded the Gateway city came down for the match, 22 players being here to represent the Capital city.

FIX RESOLUTE, RACE TOMORROW

Sandy Hook, N. J., July 16.—Repairs on the Resolute, whose throat halved yesterday's race when victory over the Shamrock IV seemed well in hand, proceeded rapidly and there was every prospect that the defender would be in readiness for another bout in the America's cup match off Sandy Hook tomorrow.

A new metal gaff was to be slung on the Resolute, and Captain Charles F. Adams the skipper, did not seem unduly chagrined over the accident that robbed him of a fine chance of victory.

Lipton Not Satisfied

The emotions of Sir Thomas Lipton aboard the steam yacht Victoria during the race fluctuated like a barometer, and when the accident occurred in the rigging of Resolute he wasn't sure for some time whether he was sad or glad.

"I'd rather not accept a victory due to an accident of a fluke," said Sir Thomas. "If they want the race not to be counted I will agree with them."

Memphis.—Dobby Jones of Atlanta, defeated Clarence Kirby, Jr. of Dallas, Texas, and entered the semi-finals of the Western Amateur Golf association championship.

U. S. OLYMPIC FINALS TODAY AND TOMORROW

Cambridge, Mass., July 16.—The first of the trials that will determine the complexions of the United States track and field team at the Olympic games were held today in the Harvard stadium. With the junior national championship meeting of 15 events as a curtain raiser, the preliminary heats of the combined Olympic tryouts and national senior championships were advanced by the Olympic committee from the program of tomorrow to late afternoon today.

Trials for the big games were held in all running events short of the mile and brought into the field the best track and field athletes in the country.

REFEREE CALLS HALT TO BOUT IN MADISON

Madison, Wis., July 16.—Willie Green of Philadelphia had Frankie Kick so badly beaten up in the fifth round of their scheduled ten round bout here last night that the referee stopped the mauling. Green carried the battling all the way and won by a wide margin. Eddie Dubeau of Paul won a sensational battle from Tommy Holzeron in the ten round semi-windup. Holzeron was hand-leaped from the second round on in which session he suffered a fractured bone in his left hand. Dubeau dropped Holzeron in the ninth round, but could not stop the willing mixer.

Scranton.—Sure Cure of Detroit captured the world's championship for class in the displacement power boats.

Why Young People Are Unhappy.

Motto: We can have what we like if we like what we have.

In proportion to the discernment of the purpose of human life in this world, namely, to be happy and to act, will be the satisfaction with one's lot for whatever it is. It can be seen that the more one discerns, the more one is satisfied with one's lot.

## The Mystery of Hartley House

By CLIFFORD S. RAYMOND

(Copyright by George H. Doran Co.)

Lovers come, as lovers will. The lady was too charming and had too much freedom. She was innocent and guileless, but her husband was not the barrier needed. Alcott said he thought she was of noble sort and was betrayed by her idea that human beings had no other life than the one they lived in this world.

The yacht brought these dear people to the landing in the river at Hartley house. It was a beautiful place, a beautiful place, a beautiful place.

My people came home in May, and the day after their arrival I went to Hartley house with my belongings, to stay in a place to take the well-known ride into the world of

There is one sure way that has never failed to remove dandruff at once and that is to dissolve it. You destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from many drug stores (this is all you will need), and apply it at night when retiring, using your finger tips to rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and the scalp will be completely dissolved and entirely destroyed every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

# OSHKOSH 4-WHEEL-DRIVE TRUCK

## READ WHAT USERS SAY

### Whistle Bottling Company

BONDED BOTTLERS

Brownsville, Tennessee Feb. 7th., 1920

Warden Motor Sales Co.,  
Memphis, Tenn.

Gentlemen:-

You ask me what I thought of my new Oshkosh truck? I have intended writing you every day, to tell you what we have accomplished with it.

In the past two weeks we have delivered 1173 cases of goods on the dirt roads, that we could not possibly have traveled with our two wheel drive trucks and our road conditions are worse than they have been in several years.

This we call Extra business, or business that we could not have possibly gotten without a truck of this build.

I cannot praise the OSHKOSH too highly, for in my mind it is the missing link in the bottlers business, where he travels the dirt road, and I say it fits to the tee.

Very truly yours,  
WHISTLE BOTTLING CO.

Gentlemen:

You asked me to give you a frank report on the Oshkosh 4-Wheel-Drive since we have now had it in constant service both day and night for about one year.

It is almost inconceivable to realize that any truck could stand the grief we have given the Oshkosh. The truck has now made over 8,000 miles through the worst conditions of mud, sand and snow and even at times this winter it has been necessary for us to trail a bob sleigh with a combined load of 5 ton of cord wood.

When hauling slab wood from the saw mill we must depend on this truck to deliver a full load to any part of the city in average time of 27 minutes. Previously it required three teams to handle this and often after heavy rains it was difficult for the teams to get their load out of the mill yard. During the night we deliver coal to the public institutions.

The tires look good for another 8,000 miles and the gasoline consumption is less than that of our light one ton truck. The truck is actually running as good as the day we received it and has proven to be the cheapest investment we have made and has solved our hauling problems.

I believe there are many other truck users who are spending a lot of money in experimenting with the same conditions and costs of hauling as we did until we bought the Oshkosh 4-Wheel-Drive. If any truck prospects could come to Stevens Point and follow our truck for a few hours, there would be no doubt about their purchase.

Also, the Service Policy of your company has been more than we expected.

Very truly yours,

RE: Shipment of trucks.

Dear Sir:-

We beg to advise that trucks now in transit for us are all sold, and we would like to increase our allotment of trucks.

The sale of these trucks has been so far in excess of our expectations, that we will need more trucks in 1920 than our contract calls for.

On account of the road conditions around Tampa, the need of 4-Wheel Drive Trucks has been felt for a long time.

While there have been a number of 4-Wheel Drive Trucks of different makes sold in this territory, it remained for the Oshkosh, with its speed and sturdy construction, to really make this type of truck popular.

Please advise by wire when another shipment will be made, and oblige,

Yours very truly,

Oshkosh, Wisconsin,

Dear Mr. Hilton,-

An exhaustive investigation into the sales possibilities of the Oshkosh 4-Wheel-Drive, which involved competitive demonstrations against various makes of trucks which have a ready sale in this territory, coupled with many interviews with fleet owners and smaller operators, has convinced us of the almost unlimited sale of our truck, if we can make quick delivery.

This condition, and your limited production, prompts our wanting as many trucks delivered to us just as soon as you can get them to us, for if we are to enjoy the volume of business we have a right to expect, we must be prepared to take care of the immediate needs of our buyers.

We, therefore, write you to verify our conversations along this line while you were with us in the territory, and to give you this letter as our authority to ship us as many trucks as you can build, just as fast as you can turn them out. We reserve the right, of course, to countermand this order at our discretion, but do not expect to take this action for many months to come, unless you very materially increase your production. You now have plans on foot to take this action, we understand, and hope you are successful in completing these plans.

If you can send us enough trucks this Spring to take care of the sales we now have pending, which will be consummated very soon, we can very easily lay a foundation of sales possibilities which will permit our disposing of about two hundred trucks this year.

With kind personal regards and good wishes, I am,

Very sincerely yours,

*John E. Lewis*  
President.
